

MYOB FirstEdge

Basic business management for small or home-based businesses

MYOB FirstEdge simplifies the way you quote, track and invoice your jobs. It also tracks your transactions and VAT, and provides you with over 70 reports to help you understand your business. Now includes Apple Address Book synchronisation.

**Invoices | Profit & Loss | Debtors | VAT
Universal Binary | iCal Integration | .Mac Integration**

Get started fast

The Easy Setup Assistant in MYOB FirstEdge can get you up and running in minutes. It prompts you with a series of questions that help you set up your accounts according to your industry and particular business needs.

Create quotes that convert to invoices

Entering a sale into MYOB FirstEdge can take as little as a few seconds and doesn't require any accounting knowledge. Our on-screen invoices look exactly like real ones, making it easy to get started.

You can also follow up invoices with statements to encourage prompt payment – and if your statements fail to get a response, you can use the reporting features to help you follow up any outstanding accounts.

Track job costings and profitability

When you're running a business by yourself, it's important to have a complete understanding of all of your costs – and how you've acquired them.

In MYOB FirstEdge, the relationship of these job specific expenses to their respective jobs is called job tracking. By tracking jobs with MYOB FirstEdge you will be able to see at a glance the net profit (or loss) for a job and get an immediate breakdown of the income and expense incurred.

Manage your VAT and produce accurate returns

MYOB FirstEdge makes tracking your VAT return (cash basis) easy with a range of reports that will help you identify your VAT obligations, track VAT paid and collected, as well as identify any transactions you might have missed.

Automatically reconcile your accounts

If you do your banking online, you can download and automatically reconcile your bank and credit card statements against your MYOB transactions. Where the transactions match, they will automatically appear as cleared – saving you time and the tedium of line after line of manual bank reconciliation. Any un-matched transactions can easily be added and automatically reconciled.

This way, you can keep track of:

- Cash and cheques (written and received)
- Credit card purchases
- Credit card payments
- Cash machine withdrawals and deposits
- Petty cash transactions
- Payments made to suppliers

Create and customise over 70 reports

MYOB FirstEdge tracks your business activities and can provide you with a whole range of information on demand, from a detailed Profit and Loss and Balance Sheet, to a monthly sales by customer report.

MYOB FirstEdge factsheet

Customise to suit your needs

MYOB FirstEdge lets you customise the content and look of reports to suit the needs of your business. You can limit the information a report contains to a particular period, account or customer, or include specific details such as customer's credit limit. You can also easily design your own quotes, invoices and statements.

Email quotes, invoices and reports

You can save time and money by emailing your quotes and invoices direct to your prospects and customers, as well as printing and sending them by fax. You can also create forms and reports in PDF format for viewing in Preivew or Adobe Acrobat Reader.

Having your invoices with your customers within seconds rather than days will increase the likelihood of you getting paid faster. Also, a promptly received quote will reinforce the perception in your prospects' minds that your business is the one they should be dealing with.

System requirements

Mac OS X 10.4 or later

For a more detailed system requirements list visit www.myob.co.uk/mac

Try before you buy

The best way to experience the power and ease of use of MYOB software is by trying it.

MYOB free trial versions give you the option to use the full functionality of the products for 30 days (45 days for MYOB RetailBasics).

Once you have evaluated the software you can transfer to the full product whilst maintaining all the data entered during this trial period.

FREE introductory Telephone Support

Learning any new software can be a little daunting, so for that little extra peace of mind MYOB gives you 30 days of FREE introductory support, starting from the day you register your product.

Further information
